3 KEY TAKEAWAYS

1. Buyer demand has increased slightly over the past year as exhibited by the small increase in total sales coupled with the significant decrease in days on market.
2. While median prices have rose slightly across the MSA, this increase is due in large part to increased prices in the attached category where larger homes have become more prevalent.
3. The modest year-over-year increase in the number of contracts written this past quarter signals that Q3 2014 should be a strong quarter.

3 KEY TAKEAWAYS

1. Despite the slight year-over-year drop in total sales this past quarter, the rise in median prices and decrease in average days on market are positive signs for sellers.
2. Buyer demand is quite strong as exhibited by the fact that less than six months of inventory were available at the end of the quarter despite a 34% year-over-year increase in inventory levels.
3. The third quarter is poised for success for the City given the modest increase in the number of contracts written and the substantial inventory available.

3 KEY TAKEAWAYS

1. While total sales levels in Albemarle were the highest they've been in the past five years, overall the market trends were relatively flat on a year-over-year basis.
2. The rise in inventory levels was mostly met with equal buyer demand as exhibited by the six months of inventory available at the quarter's end.
3. With sales of attached homes continuing to increase, primarily due to the increased prevalence of attached manor homes on the market, we will be monitoring how builders react to this trend in the quarters ahead.
